Product Quality Complaint Report

Logged on: August 08, 2026

Reporting Details

This complaint was reported by **MedPlus Pharmacy**, which raised a product quality concern regarding a batch of Paracetamol tablets currently held in its stock.

Product Information

The product concerned is **Paracetamol Tablets 650 mg**, belonging to batch number **PCM260711**. This batch was manufactured in **April 2026** and carries an expiry date of **March 2028**.

Nature of the Complaint

MedPlus Pharmacy reported that tablets within this batch were found to be **broken**. This suggests a possible issue with the tablet's physical integrity, which may have occurred during manufacturing, packaging, or transit and handling of the shipment.

Complaint Status

This complaint was formally logged on August 08, 2026 and is currently marked as **Open**, pending further review and resolution.

Recommended Next Steps

It is recommended that the affected batch be reviewed by the quality assurance team, that remaining stock of this batch be quarantined pending investigation, and that the manufacturer be notified for root-cause analysis and possible replacement of the affected stock.

This document serves as a formal record of the reported product quality complaint for internal tracking and follow-up purposes.
